

I am writing in the interest of preserving our local K-Love station. My children listen to the station and we have a high level of confidence as parents, that the content is very positive. My son, in particular, listens to the station to go to sleep at night. K-Love is all over the Country, but also serves local interests by allowing local non-profits to advertise for free. K-Love and it's musically edgier sister station, Air 1, are great augmentation to what we typically get over the air in Santa Cruz County. It would be a bad idea to loose such programming.
